FORMERLY OF DANVILLE, KENTUCKY.

WATCH MAKER.

Successor to B. F. Meek, Main Street, Frankfort, Ky., continues the watch repairing business at the old stand. By promptness and careful work he hopes to merit the patronage of those who desire to have their watches repaired, without damage being done them. Repairs of compasses repaired and other instruments requiring delicate and accurate adjustments.

In retiring from business in Frankfort I take pleasure in expressing my entire confidence in Mr. S. Ayers, and from my long acquaintance with him as a workman, do not hesitate to commend him as every way capable of meeting the expectation of my former patrons.

[Communicated.] The Legislative Race.

Editor Roundabout:

Only a few days since there were three candidates for Representative of Franklin county—Mr. Julian, the regular Democratic nominee, Mr. Brawner, Independent, and Mr. Lewis, the regular Republican nominee. But on Saturday last Mr. Lewis withdrew his name at a called meeting of the Republican County Committee, and now we have only two candidates.

Mr. Brawner's friends loudly proclaim that they caused Mr. Lewis' name to be withdrawn for the purpose of getting the *union and Republican votes for Brawner, and thereby, if possible, defeat the regular Democratic nominee.* In other words, this is an open combination between Mr. Brawner and the negroes of Frankfort (together with such white Republicans as will follow the motley crew) to defeat the Democratic nominee, or reduce the Democratic majority in Franklin county!

Now then, fellow Democrats, will you submit to this? Will you aid Mr. Brawner, a professed Democrat, in this attempted trick; this conspiracy with the worst portion of the Republican party? A vote for Mr. Brawner is a vote against the Democratic ticket; a vote for Mr. Brawner is a vote directly in the interest of the Republican party.

Such a combination might win in some counties; it cannot win in Franklin. If Mr. Brawner desired the support of good Democrats, why did he not go into the Democratic primary election and abide its decision? Because he expected aid and comfort from the Republicans.

It is the late candidates for the office of Sheriff had done as Mr. Brawner is now doing we should have either Mr. Graham or Mr. Lucas or Con. Collins still running for Sheriff with the hope of being elected by the negro and Republican vote of the county.

But those gentlemen are too good Democrats to ever think of such a course. Few upon any Democrat who will suffer himself to be used as a tool in this manner!

We need our full strength at this election, especially because next year is the great National contest. Then, fellow citizens, stand to your colors; go to the polls, and shame be to him who aids the enemy.

Yours truly,

DEMOCRAT.

FRANKFORT ROUNDABOUT.

Entered at the post-office at Frankfort, Kentucky as second class mail matter.

GEORGE A. LEWIS.

Editor and Publisher.

FRANKFORT, JULY 28, 1883.

Please bear in mind that the blue pencil mark X on your paper indicates that the time for which you have paid has expired and you are requested to call around and settle.

Messrs. Crutcher & Starks have had a neat balcony erected in front of the great White Hall Clothing House, from which the weekly concert will be given to-night, by the Frankfort Quartette.

President Arthur, Attorney General Brewster, Secretary of War Lincoln, and Postmaster General Creswell will pass through this city Tuesday afternoon on the C. & O. train, bound for Louisville, to be present at the opening of the great Southern Exposition.

The Main and St. Clair street lines again crossed bats at Lake Park Thursday afternoon, which resulted in a score of 25 to 24 in favor of St. Clair. If those fellows around on Main street know any other game they are good at let them come around and St. Clair will show them how to play it.

We were shown on Saturday, by Mr. Milton Moore, a curiosity in the shape of a wooden stump which had grown upon and out from his place. It was a perfectly formed as it fashioned by the hand of man, was about twelve inches long, and the limbs which formed it an inch and a half thick.

Mr. Sim. Montague, a well known character in this city, died at his home in what is known as "Scott's Barnicks," near the city limits, Monday morning. At one time he was a prosperous carpenter, but of late years has gained his livelihood almost entirely by fishing. He was a soldier in the Mexican war.

Mr. John Branch's remarkable milk cow, of which we have spoken heretofore, gave birth to a calf a few weeks since, and in one day gave twelve gallons of milk in the loan. Her average yield now is seven or eight gallons per day. She is six years old, is a cross between Durham and Jersey, and has had five calves, all bulls.

Col. D. L. Sublett, U. S. Engineer in charge of the Kentucky river improvements, on Monday set a force of hands to work at Lock No. 4, below this city, having the foundation of the lower slope of the dam, which he proposes to rebuild this summer, provided the stage of the water during the balance of the season will permit. A large lot of timber has been secured and the work will be pushed right along.

Women's side lace shoes \$1—old price \$4 (at McClure's).

Rev. Dr. J. M. Lewis will preach at the Pea Ridge School House, two miles from this city, to-morrow afternoon at 3 o'clock.

Sister Vincenza, Superior of St. Joseph's Academy in this city, died Friday night of last week. The remains were taken to Nazareth for interment.

Mr. L. R. Oliver, green grocer and fruit dealer on Ann street, made an assignment Wednesday to Dr. E. E. Hulse, for the benefit of his creditors.

Messrs. Crutcher & Starks have employed musicians and vocalists to give open air concerts in front of White Hall every Wednesday and Saturday evening.

The game of base ball at Versailles Tuesday afternoon, between the Capital City Club, of this place, and the Versailles Club, resulted in a score of 16 to 11 in favor of the former.

During the storm Tuesday morning a large elm tree near the saw-mill of Messrs. Hughes & Dunsen was struck by lightning. Aside from tearing off the bark of the tree no damage was done.

The blackberry patches are furnishing employment for a great many persons just at the present time—picking the berries and scratching where the chiggers have gone under the skin.

Col. Thos. Z. Morrow, Republican candidate for Governor, will probably address the people of Franklin county at the Court House one night next week. Due notice of the time will be given.

The Police Commissioners of Louisville on Tuesday appointed 64 private policemen for duty at the Southern Exposition, of which Capt. E. H. Taylor, formerly of this city, is chief and Geo. T. Patton, Ken O'H. Tremere, and Jas. M. Crockett, also former citizens of this place, are of the number.

In consequence of the dam at Luck No. 5 being repaired, the water in this pool is being drawn off, and a report is being circulated that the boats would soon stop running on account of it. We are authorized to say that the City of Frankfort will continue her regular trips and are certain the Fannie Freese will also.

Frankfort is again without a daily paper. The Daily Inquirer turned its little toes up to the daisies on Wednesday and climbed the golden stair. The young men who had undertaken its publication made a gallant effort to keep it afloat but failing to receive that support from our citizens which they had hoped for, came to the wise conclusion that it would be better to let the paper die than run in debt, and closed out.

The Fannie Freese came up Thursday afternoon with a good trip and went down yesterday morning heavily loaded with lumber and grain. She is still doing a good business. Capt. Pence will build a Texas on her roof on the next trip and otherwise improve her. Mr. Mullins, the pilot, says she is the easiest boat handled he ever saw; no difference what kind of water or weather he can make her do almost anything he wants.

E. Power has several hundred tea roses in bloom, including Marshall Neils, and he is prepared to furnish rose buds in any quantity on demand. Persons wishing Marshall Neils buds should have orders in a day or two before they need them as they are scarce at this time of the year.

He has other flowers in preparation, and is prepared to furnish bouquets or designs made up in a very short time after the order is sent in.

Elder P. S. Fall will preach at the Presbyterian Church to-morrow morning at eleven o'clock. There will be no services at night.

The colored base ball club of this city defeated the Lawrenceburg club Saturday in a game at that place. The score standing 26 to 9.

A burglar entered the residence of Mr. D. Owen Robinson, on the Owenston pike, just beyond the city limits, Tuesday night. Mr. Robinson is a night guard at the Penitentiary and, of course, was not at home, but his wife was fully able to take care of herself, as she had a pistol in the house and made good use of it by firing several shots at the thief before he got out of the house.

An excursion train will be run by the L. & N. Railroad to High Bridge Camp Meeting to-morrow, in order to give all those who desire to hear the celebrated divine, Rev. T. DeWitt Tammage, of Brooklyn, New York, who will preach there on that occasion. The train will leave this city at 7:30 o'clock, and the fare for the round trip will be only \$1.75.

Mr. Moses O'Connor, for nearly three years a valued employe of this office, has retired from the business and opened a grocery on Mero street, between Washington and Wapping. Moses is a good business man, a clever fellow, and we wish him all the success in his new business that he deserves—that he may grow so rich as never to be compelled to return to the case for a livelihood.

Mrs. Swiger has had a neat and substantial stone guard wall built between St. Clair street and the roadway to the wharf, from Wapping street to the bridge, and now the city should have the retaining wall on the river bank, from the abutment to Mrs. Swiger's wall repaired or replaced with a new one, and a new brick sidewalk laid from Wapping street to the bridge. In fact the pavements on each side of the street at the north end of the bridge are in a wretched condition, and should be repaired before another winter sets in.

An Mr. H. A. Evans was going to dinner yesterday, in crossing the mouth of the alley which runs from Main to Broadway, between St. Clair and Washington streets, he discovered the roof of the old brick building immediately in the rear of Swiger's block to be on fire and gave the alarm. The Fire Department were soon at work and extinguished the flames before any great damage was done by the fire, but flooded the whole premises with water. Twenty-five or thirty dollars will cover the damage. The fire was caused by a defective flue.

Franklin county paid tax from 1879 to 1880: Billiard tables, \$120; cards, \$5 75; no dogs. From 1880 to 1881: Billiards, \$100; cards, \$8 50; no dogs. For fiscal year ending October 10, 1881, into School Fund: Billiards, \$38.60; on dogs, \$8.64; no cards. Auditor says: "Much of the revenue is lost through exonerations."

The above shows a gradual killing off of the tax. Can it be possible that the rest of the dogs have been exonerated from their tax? There is a screw loose somewhere. The School Fund is losing too much tax. Is there no remedy, or is there no one to look after the tax that is due the School Fund? What is the office of Superintendent of Public Instruction intended for, unless it is intended for him to look after the school interest throughout the State, and to see the laws applying to the public schools are rigidly enforced and the money promptly collected and placed to the credit of the School Fund?

No more taxes for schools when the present laws are so badly enforced and taxes not collected and properly credited.

The shrill whistle of the steam thrasher engine can be heard all over the land.

The Flat Creek Base Ball club last beat our Elkhorn club two to talk about.

One farmer north of the creek has threshed his wheat crop and reports a yield of four bushels per acre.

Mr. and Mrs. John Smith and Mr. and Mrs. D. Glanton were the guests of Mr. and Mrs. Cyrus Calvert last Tuesday.

Miss Kate Duvall, a beautiful and accomplished young lady, has been on a visit to Miss Julia Wallace this week.

Mrs. D. Glanton, while canning fruits one day this week, had the misfortune to get one of her hands severely burned with boiling water.

We'll have inquired diligently and will not wait until those votes are to come from Alex. promised to tell us, but he hasn't done so yet.

We are glad to know that our friend and neighbor, John Smith Esq., has entirely recovered from a threatened illness contracted on a visit to his neighbor, Cyrus Calvert, Esq., last Tuesday.

The continued illness of old aunt Betsy Toney is telling heavily upon the delicate constitution of her friend and benefactor, Capt. Jno. R. Gay, caused by his constant watchfulness at her bedside, where many a found day and night ministering to her wants.

The Rev. Dr. Lewis preached an interesting sermon last Sunday evening at Thorn Grove school house. We hope the Doctor will make an appointment for some Sunday evening at our school house where he will be greeted by a large and appreciative audience.

There will be a protracted meeting held with the church at Pleasant Hill beginning the first Sunday in August. Conducted by the pastor, the Rev. Doctor Ford, and assisted by Elder J. K. P. Smith, who is noted for his great piety and earnestness in proclaiming the truths of the Bible. Every body is invited.

It is strange that men who are paying from two to five hundred dollars a year rent on farm. Don't buy the land, square out and let this money go toward securing a title. We know of several good farms that can be bought by paying one-fourth or one-third cash and the balance in yearly installments, like paying rent. Stop and think before you contract for another year.

One of our best citizens would say to the public that he has tried Hall's Scurvy Cure and it is all that is claimed for it. Price 75 cents per bottle.

Young men should always wear their Sunday clothes when they call on the young ladies, or they may be snubbed, as was the case with two young gents recently, not a thousand miles from here.

Died.

Of cholera morbus, on Monday last, Mr. Sim. Montague. He was in his 76th year, and leaves two sons and a married daughter to mourn his loss. Mr. Montague was a member of Company C, Miles' Company, Marshall's Regiment, Kentucky Volunteers, Mexican War. He was a good soldier and went through the war. He returned home to Frankfort, where he has since resided. The Government has millions of dollars in the treasury, but not one dollar have they paid to the poor worn and broken down, but brave and gallant Mexican Soldiers. Kentucky is likewise.

A Mexican Soldier can die here in the capital of the State, a grave is prepared for him in the paper hurrying ground to receive his remains. But thanks to a few patriotic citizens, he was buried in the cemetery within a stone's throw of the circle owned by the State for the Mexican Soldiers. He is now at rest and within the shadow of the column erected by the State to commemorate the deeds of her gallant sons, of whom he was one. He is near enough to his illustrious comrades, notwithstanding a special act of the Legislature, is required to bury one of Kentucky's illustrious one dead in the far famed circle. Shame to the Government and the State. May he rest in peace.

McClure & Bro. are closing out some old stock. Odds and ends at almost any price.

TORNADOES.

Scientifically Accounted for, and Some Remote Causes that Produce Painful Results Explained.

The following synopsis of a lecture delivered by Dr. Horace R. Hamilton before the New York society for the promotion of science, contains so much that is timely and important that it can be read with both interest and profit.

There is probably no subject of modern times that has caused and is causing greater attention than the origin of tornadoes. Scientists have studied it for the benefit of humanity; men have investigated it for the welfare of their families. It has been a vexed subject long considered, and through all this investigation the cyclone has swept across the land carrying destruction to scientists as well as to the innocent dwellers in its track. One thing, however, is certain: the cause of the cyclone must be sought far away from the whirling ball of wind itself. Its results are powerful; its cause must also be powerful. Let us, therefore, consider a few facts.

First, the appearance of the cyclone is invariably preceded by dark spots upon the face of the sun. These spots, indicating a disturbed condition of the solar regions, necessarily affect the atmosphere of our earth. An unusual generation of heat in one part of the atmosphere is certain to cause a partial vacuum in another position. Air must rush in to fill this vacuum.

Hence disturbances—hence the cyclone. The theory finds additional confirmation in the fact that tornadoes come during the day and not at night. The dark spots upon the surface of the sun, whatever they may be, are in the position of the sun in the atmosphere of the world, and it is almost certain that the extremely wet weather of the present season can be accounted for on precisely this basis.

Second, it is reasonable to suppose that the enormous effect of the sun upon vegetation and life in general shall be less than upon the atmosphere itself through which its rays come. The cause is remote, but the effect is here.

After describing some of the terrible effects of the cyclone, the speaker went on to say:

This rule finds its application in nearly every department of life. An operator is in San Francisco—the click of the instrument manipulated by his fingers, in New York. The President makes a slight stroke of the pen in his study—the White House, and the whole nation is aroused by the act. An uneasiness and disgust with everything in life, commonly called home sickness, is felt by many people, when the cause is to be found in the distant home thousands of miles away. An uncertain pain may be felt in the head. It is repeated in other parts of the body. The appetite departs and one may say, "I have no pain whatever, but I feel as if I were in the head."

The next day the feeling increases. There are added symptoms. They continue and become more aggravated. The slight pains in the head increase to agonies. The nausea becomes chronic. The heart grows irregular, and the breathing uncertain. All these effects have a definite cause, and after years of deep experience I can say, "I do not hesitate to say that this cause is to be found in some derangement of the kidneys or liver far away from that portion of the body in which these effects appear. But one may say, 'I have no pain whatever in my kidneys or liver. Very true. Neither have we any evidence that there is a tornado on the surface of the sun; but it is none the less certain that the tornado is here, and it is none the less certain that these organs of the body are the cause of the trouble all these things may be no pain in their vicinity.'

I know whereof I speak, for I have passed through this very experience myself. Nearly ten years ago, I was the picture of health, weighing more than 200 pounds, and as strong and hearty as any man I ever knew. I felt a great desire to eat, and I ate heartily. I did not believe, however, that malaria could show such aggravated symptoms. It never occurred to me that malaria would help solve the trouble, as I did not presume my difficulty was located in that portion of the body. But I continued to grow worse. I had a faint sensation at the pit of my stomach nearly every day. I felt a great desire to eat, and I ate heartily. I was constantly tired and still I could not sleep. My brain was unusually active, but I could not think connectedly. My existence was a living injury. I continued in this condition for nearly a year; never free from pain, never for a moment happy. Such an existence is far worse than death, for which, I confess, I earnestly longed.

It was while suffering thus that a friend advised me to make a final attempt to recover my health. I succumbed inwardly at his suggestion, but I was weak and unable to resist. He furnished me with a remedy, simple, yet palatable and within two days I observed a slight change for the better. This awakened my courage. I felt that I would not let that time and trouble be wasted. I continued the use of the remedy, taking it in accordance with directions, until I became not only restored to my former health and strength, but of greater vigor than I have before known. This condition has continued up to the present time, and I believe I should have died as miserably as thousands of other men have died and are dying every day had I not taken the simple yet wonderful power of Warner's Safe Cure, the remedy I employed.

The lecturer then described his means of restoration more in detail, and concluded as follows:

My complete recovery has caused me to investigate the subject more carefully, and I believe I have discovered the key to most ill health of our modern civilization. I am fully confident that four-fifths of the diseases which afflict humanity might be avoided were the kidneys and liver kept in perfect condition. Were it possible to control the action of the sun, cyclones could undoubtedly be averted. That, however, is one of the things that cannot be. But I rejoice to say that it is possible to control the kidneys and liver; to render their action wholly normal, and their effect upon the system that of purement rather than poisoners. That this end has been accomplished largely by means of the remedy I have named I do not have a doubt, and I felt it my duty to make this open declaration to the enlightenment of the profession and for the benefit of suffering humanity in all parts of the world.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, general debility, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as Prow's Iron Bitters, and it does this by commencing at the foundation, and making the blood pure and rich.

Wm. P. Marshall, of Loganport, Indiana, writes: "My wife has for many years been troubled from pain in her back and general debility incident to her sex. She has taken one bottle of Brown's Iron Bitters, and I can truthfully say that she has been so much benefited that she pronounces it the only remedy of many medicines she has tried."

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.
